

### **Teaching at Home - Public liability Premises Risk**

Your Professional Liability insurance covers your teaching work from wherever you conduct classes. However, increasing numbers of teachers/therapists are now working from their own (home) premises, which means that there is also a need for Public Liability cover whilst in a non-teaching situation (slip and trip) e.g. a student tripping over your steps or stairs and then seeking to hold you responsible as the property owner/occupier. Such cover is required to protect your legal liability to third parties who enter your premises. You would be liable where negligence is proven against you but not where a third party is found to be the author of their own misfortune.

This is an important issue for people working from home and sadly one for which the ramifications are often overlooked. Our advice is to check you have the cover you need and if you are in any doubt we urge you to contact us.

### **Locum Cover**

This extends your cover so that a temporary replacement qualified teacher / instructor / therapist can take your classes in your absence (maximum 14 days per person per annum).

### **Additional Activities /Complementary Therapies**

We can cover a range of activities /therapies to indemnify you for all aspects of your work, such as Healing, Dance, Pilates, Fitness Instructors and a wide range of Complementary Therapies. Many can be included at no additional charge, please contact us if you would like a quotation.

### **Legal expenses for Individuals (This cover is not available to residents of the Republic of Ireland)**

This is important because we are now well into the 21<sup>st</sup> century and whether we like it or not we are all regulated by masses of legislation. For minimal cost you can have access to professional lawyers 24/7 in relation to any matters concerning your business – as often as you need them – to steer you through this legislation when necessary and for advice on the procedures to follow.

And should you need to claim on your legal expenses policy as opposed to just seeking advice then the policy provides protection: -

## CENTRES OR STUDIOS, COMPANIES, CORPORATE BODIES OR GROUPS/ASSOCIATIONS AS ENTITIES

### Public Liability Premises Risk Extension

We can extend the cover provided by your Instructor's Indemnity insurance to include the Public Liability premises risk at your studio/centre. The premium is rated upon the number of sessions or classes held weekly and/or the number of instructors involved.

### Contingency Malpractice & Public Liability cover for Companies, Corporate Bodies or Groups/Associations as entities

Our scheme insurance provides cover directly to the teachers/instructors and therapist that provide the service. However, many such teachers while self-employed as individuals are engaged or deployed by another 'agency', such as a Centre, Studio or Franchise company.

Where this relationship exists, it may not be sufficient for the teacher alone to have Malpractice and Public Liability insurance because the aggrieved customer/client/ student /patient intent upon pursuing a claim, may seek to do so against that party with whom the class or treatment was arranged, as well as the instructor/therapist involved. By arranging Contingency cover you can ensure that your vicarious liability is indemnified in case such a claim is made against you or your organisation/centre/company etc.

*The cost* is based upon your working turnover and assumes that all regular instructors have their own individual insurance in place. However, the contingency cost is a fraction of the standard individual rate payable for all regular teachers, as might be expected.

### Employers' Liability Insurance (This cover is not available to residents of the Republic of Ireland)

This type of insurance is a statutory requirement for anybody employing staff irrespective of whether wages/salaries are paid. All employers have an absolute duty of care to their workers, which explains why this class of insurance is mandatory in the UK. The premium is based upon your annual wage roll.

### Guest Tutor Liability

This cover extends the policy to indemnify any guest tutor temporarily working on behalf of the Insured for a maximum of 30 days in all in any Period of Insurance.

### Teacher Training

Are you a Teacher Trainer/Tutor?

If you are involved in training other Yoga Teachers, either individually or under the auspices of a training school, then it is recommended that you extend your cover to include full Professional Indemnity insurance.

Such cover includes advice given and therefore indemnifies the Trainer against accusations of poor or inadequate teaching. Your existing malpractice cover includes professional negligence up to a point but only where there is direct injury to a student involved. The full Professional Indemnity cover goes further by indemnifying you against claims for financial loss where there is no injury involved.

### Business Combined – Separate Commercial Insurance (This cover is not available to residents of the Republic of Ireland)

DSC Insurance Services can help with commercial insurance that incorporates any Business Contents and/or Stock as necessary. We have arranged facilities with insurers and each risk enquiry is individually assessed according to its particular requirements and location. Rates are generally competitive throughout the UK, and as well as Public Liability we can arrange cover for Buildings and Contents combined or either element in isolation.

### Legal Expenses cover for Businesses and Training Companies (This cover is not available to residents of the Republic of Ireland)
