THE TCUGB Goes Greener

In addition to moving the journal online to reduce the carbon footprint, we are now changing to ethically sourced t-shirts, using the Earth Positive range.

Many members are also opting not to receive a t-shirt every year to reduce their carbon footprint. We'd like to know your thoughts on this as we all aim to play our part.

Email us enquires@taichiunion.com

Issue 64 on its way

We are currently working to complete issue 64 which will be out December/January. We are already compiling content for issue 65 and look forward to receiving your submissions.

Email them to us at enquires@taichiunion.com

The magazines been posted on the new dedicated magazine website, have you clicked on and read it yet? Visit <http://taichimag.org> and click the cover image of the issue you want to read. More issues will be added over time. Please note, the site is http not https so some browsers flag

a safety warning; it is nothing to worry about as the site doesn't collect personal details and doesn't sell anything, it's just google tightening up. We will be moving server as the magazine project develops.

The Digital Magazine continues to develop

The new-look magazine continues to develop and has more hyperlinks to videos, websites etc. so please try them out. We will continue to offer both the pdf version and flipbook versions.

For those who would like a printed magazine, there is the option to purchase single copies at the new renegotiated price of £5. They will be printed in the UK on 100% recycled carbon neutral uncoated paper. We have made arrangements with ASKPrint online and setup an online shop at:
